SOLUBLE PHOSPHATED

PERUVIAN GUANO

MADE OF GUANOS OF DIRECT IMPORTATION,

Under the personal supervision and di rection of Dr. R. H. STABLER, Chemist, of this city.

THIS FERTILIZER

confidently recommend, as the most permanent and cheapest yet offered to the public. Being composed of

NO. 1 PERUVIAN & SOMBRERO

GUANOS, OF OUR OWN

DIRECT IMPORTATION FROM THE

Chincha & Sombrero Islands. WE WARRANT IT IN EVERY RESPECT.

THE SOMBRERO GUANO, Before being mixed, is rendered immediately soluble, by the addition of Sulphuric acid. This treatment is universally recommended by the most eminent Agricultural Chemists. Without it, the action of

the two Guanos when mixed is not simultaneous, and consequently comparatively inefficient.

This is the ONLY mixture of the Ammoniated and Phosphatic GUANOS we know of, yet offered to the Agricultural community, in a REALLY SOLUBLE form.

Price \$50 per Ton of 2,000 lbs. Our reports from those who applied the above FERTILIZER to their crops last fall, are highly satisfactory—so much so, indeed, as to convince us that our Soluble Phosphated Peruvian Guano will ere long be altogether used in this section, as a substitute for the Peruvian Guano, which, without the addition of Phosphates, tends rather to exhaust than permanently improve the soil.

"A REMARKABLY FINE ALE .- Mr. Davison's successor in the Washington Brewery, corner of K and 27th streets, Mr. Colineau, is now manufacturing XX ale and porter and brown stout, all of which reflect infinite credit on his establishment. His ale compares favorably, indeed, with the best Philadelphia and Albany ales, being, according to our taste, much more like the best English and Scotch ales than those imported from either of those cities.
